

AIRCRAFT WASHER

When fuel efficiency and appearance are important to your organization, then keeping your aircraft washed regularly is necessary. Vestergaard Company has developed an open-basket aircraft washer based on the very successful Elephant MY deicer (7-800 in use around the world).

The aircraft washer has a specially designed basket with soft safeguards and optional protection systems for safe driving and maneuvering.

The washer can be delivered with a separate detergent tank and a mixing system. Optionally you can also choose to have a heater and of course it can be delivered with one-man operation.

The Elephant MY Aircraft Washer can be delivered on a Volvo diesel chassis or on the Vestergaard e electrical chassis.

MAJOR ADVANTAGES

- » Based on proven technology
- » Highly reliable in operation
- » First-class workmanship
- » Safe maneuvering around the aircraft

AIRCRAFT WASHER

Specifications:

Maximum lifting height: see above
Overall height (typically): 3.8 m (12'6")
Overall width (typically): 2.6 m (8'7")
Overall length (typically): 9.0 m (29'6")

All above mentioned data are chassis dependent

Total tank capacity:

4000*, 5600 or 7600 litres
(1060*, 1480 or 2010 gal US)

One or two tank configuration available.

Weight (empty tanks): 8.5 - 12.5 Tons (metric)

Hot water option available.

One-man (drive from basket) option available.

Fluid selections:

Standard	100%	Water
	100%	Detergent
Option	5-20%	Detergent mix

Efficient corrosion protection: lifting basket in aluminum, coating of hollow frame members internally, sandblasting and metallizing of exposed areas before painting with primer, undercoat and top enamel.

** Only up to 11 meters reach for small tank aircraft washers (dependent on chassis)*
